

# PSC

带法兰接触面的多棱锥接口 (GB/T 32557/ISO 26623)  
Multi-pyramid interface with flange contact surface

PSC产品整体解决方案助力您的高效切削加工!  
PSC product integrated solution to help you efficient machining!

## PSC工具接口介绍: PSC tool interface introduction:

PSC是一种采用三棱锥定位，并实现棱锥锥面与法兰端面同时定位与夹紧的工具接口，现已纳入ISO及国家标准。其具有以下特点：

### 高刚性

三棱锥与端面同时定位与夹紧，使其具有极佳的抗弯与抗扭能力，可以提升刀具的切削性能，获得更高的加工效率。

### 高精度

采用三棱锥的定位方式，可以提供X、Y、Z三个方向 $\pm 0.002\text{mm}$ 的重复定位精度，是理想的车削工具接口，可以实现线下对刀线上直接加工，省去试切对刀环节。

### 换刀迅速

PSC工具接口采用涨爪式夹紧，能够将换刀时间压缩至一分钟内，有效提升机床的利用率。

### 易于实现模块化

可以通过用各种接长杆组合成需要的刀具，减少刀具库存

PSC is a kind of triangular pyramid positioning, and realize the pyramid cone and flange end at the same time positioning and clamping tool interface, has been included in ISO and national standards. It has the following characteristics:

### High rigidity

Triangular pyramid and end face positioning and clamping at the same time, so that it has excellent bending and torsional resistance, can improve the cutting performance of the tool, obtain higher processing efficiency.

### High precision

The positioning method of triangular pyramid can provide repeated positioning accuracy of  $\pm 0.002\text{mm}$  in X, Y and Z directions. It is an ideal turning tool interface, which can realize direct machining of offline tool and online tool, eliminating the link of test cutting tool.

### Quick tool change

The PSC tool interface adopts the expanded claw clamping, which can compress the tool change time to one minute, effectively improving the utilization rate of the machine tool.

### Easy to implement modularity

Tool inventory can be reduced by using a variety of long rod combination into the required tool.

## PSC夹紧原理（涨爪式） PSC clamping principle (extended claw type)

夹紧时，拉杆向右移动夹爪张开，夹爪外弧面顶在PSC锥柄内弧面上，带动PSC锥柄向右移动，锥柄发生变形，最终实现三棱锥面与法兰端面同时定位与夹紧。

When clamping, the pull rod moves to the right and the jaw opens. The outer arc surface of the claw is on the top of the inner arc surface of the PSC taper handle, which drives the PSC taper handle to move to the right, the taper handle deforms, and finally realizes the positioning and clamping of the triangular pyramid surface and the flange end face at the same time.

松开时，拉杆向左移动夹爪收缩，夹爪外弧面离开PSC锥柄内弧面，拉杆左端面将PSC锥柄推出接纳器，实现松刀。

When loosening, the tie rod moves the gripper to the left to shrink, and the outer arc surface of the gripper leaves the inner arc surface of the PSC taper shank, and the left end face of the tie rod pushes the PSC taper shank out of the receiver to realize the loosening tool.

## PSC机床适配夹紧单元 PSC machine tool adaptive clamping unit

PSC接纳器为PSC刀具匹配不同的机床而设计。可以大大降低换刀时间和刀具库存，从而提升机床的使用率和降低刀具成本。

The PSC adaptor is designed for matching PSC tools with different machine tools. It can greatly reduce tool change time and tool inventory, thereby improving the utilization rate of machine tools and reducing tool costs.

根据不同机床的连接接口，我们还可以定制不同的刀座来满足你的使用，具体请与圣达刀具销售工程师联系！

According to the connection interfaces of different machine tools, we can also customize different tool holders to meet your needs. Please contact the sales engineer of SANT for details!

## 如何正确选择PSC刀具系统 How to Choose PSC Tool System Correctly

● Standard stock ○ Production to order

### 方柄接纳器-涨爪式 Square handle receiver - expansion claw type

-普通冷却设计  
-冷却液设计压力≤80bar  
-Ordinary cooling design  
-coolant pressure≤80bar

型号 Model	库存 Stock	尺寸Size (mm)													
		右刀 Right hand	左刀 Left hand	R	L	DCON <sub>ws</sub>	B	H	LF	WF	HF	OAW	OAH	HRY	CNT

### 液压法兰接纳器-涨爪式 Hydraulic flange receiver - claw type

-高压冷却设计  
-冷却液设计压力≤150bar  
-High pressure cooling design  
-Design pressure of coolant ≤ 150bar

型号 Model	库存 Stock	尺寸Size (mm)							
		DCON <sub>ws</sub>	DCON <sub>ms</sub>	LF	HTB	OAW	OAH	DMIN <sub>i</sub>	
PSC5-NC5030-00035	○	50	55	35	70	64	112	300

PSC8-NC5030-00050	○	80	90	50	110	100	180	500	

● 标准库存 ○ 订单生产  
● Standard stock ○ Production to order

Due to the different interfaces and diverse applications of machine tools, in order to meet your machining needs, we provide customized services for PSC tool holders with various interfaces and various forms of PSC tools. If you have customized needs for PSC tool holders and PSC tools, please contact the sales engineer of SANT Tools

由于机床接口的不同及应用的多样性，为满足您的加工需求，我们提供各类接口的PSC刀座以及形式各异的PSC刀具的定制服务，如果，您有PSC刀座及PSC刀具的定制需求，请联系圣达刀具销售工程师...
